Industrialized solutions

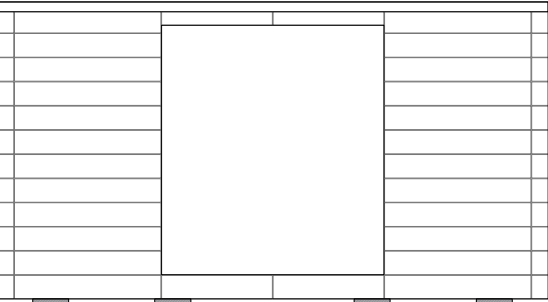

# Garden Pods PORCELANOSA, a new industrialized concept

**Butech building technology**, has more than 20 years of experience developing products and systems to support the use of ceramics in building industry. Now we present **Garden Pods, PORCELANOSA** 's commitment to the industrialization of building solutions for outdoor use.

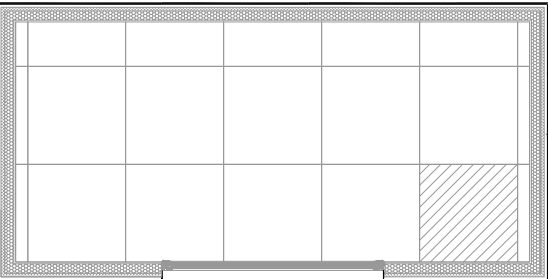

**Garden Pods** is an industrial development for the production of completely finished garden solutions, ready to be installed on site, and bringing privacy and PORCELANOSA quality finish to your backyards, gardens or patios. A different approach to a working space, bedroom, gym, home cinema or gaming room is made easy with the **Garden Pods** from PORCELANOSA.
